SANDWICH PANELS AND COMPOSITES

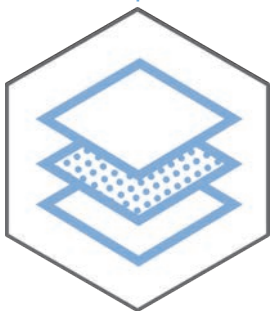

PANELPLUS™ CHANGES THE WAY YOU BUILD

PANELPLUS™ IS STRONG

PanelPlus™ offers high mechanical performance, high dimensional stability and incomparable rigidity, for the same weight, compared to any other material

PANELPLUS™ IS CUSTOMIZABLE

The composition of PanelPlus™ is chosen by the customer who can combine the different materials according to their needs in terms of finishes, thicknesses, internal core and dimensions

PANELPLUS™ IS MANAGEABLE

The sandwich paneling makes the final product easily transportable, storable and manageable during assembly

PANELPLUS™ IS VERSATILE

PanelPlus™ adapts to different fields of application, ranging from sectors such as construction and shipbuilding to the world of furniture

PANELPLUS™ IS LIGHT

The lightness given by the specially designed cores implies a lower structural load on obsolete or refurbished buildings

PANELPLUS™ IS ECOFRIENDLY

Thanks to our Research and Development and our continuous commitment with more environmental friendly materials, PanelPlus™ is officially recognized for the recycling and waste disposal in accordance with current regulations

FR-SE

FIRE RETARDANT CERTIFIED PANELS

PANELPLUS™ FR PANEL

FAH-FR PANEL

Bs1, d0

IMO MED 3.18 (a)-(c)

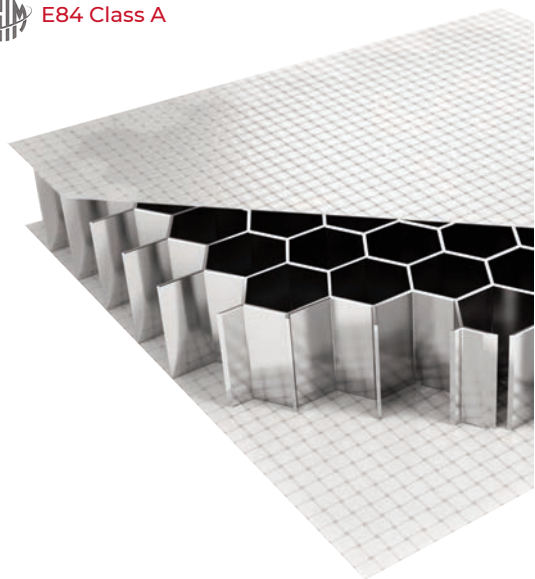

E84 Class A

Aluminium honeycomb core coated with fiberglass and epoxy resin

Usage: Support for marble/ceramic or other. Coating for internal and external facade cladding and flooring.

Application Fields: Building - Shipbuilding - Railway - Furnishing - Elevators - Camper and Caravan

AAH-FR PANEL

A2 - S1, d0

IMO MED 3.18 (a)-(c)

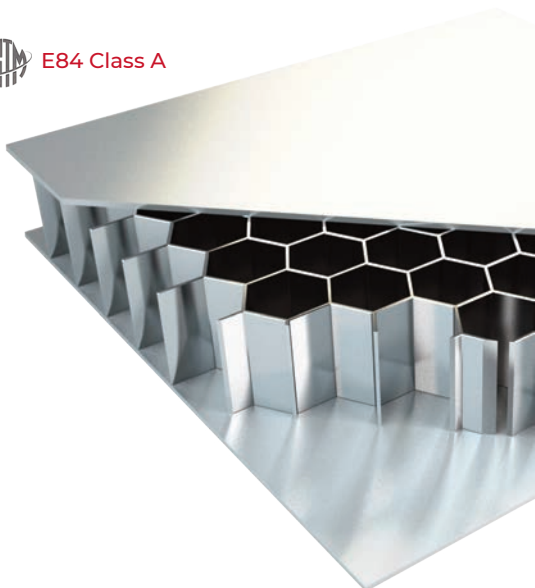

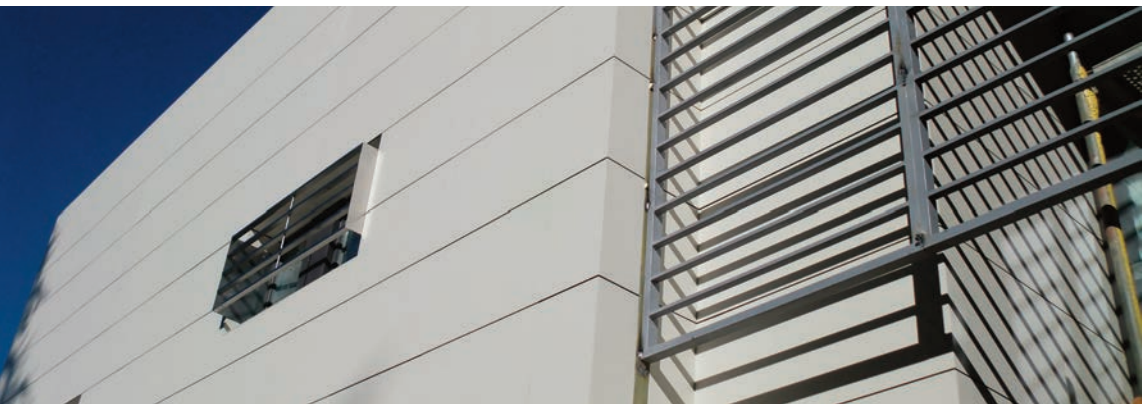

E84 Class A

Aluminium honeycomb core coated with aluminium skin

Usage: Support for marble/ceramic or other. Coating for internal and external facade cladding and flooring.

Application Fields: Building - Shipbuilding - Railway - Furnishing - Elevators - Camper and Caravan

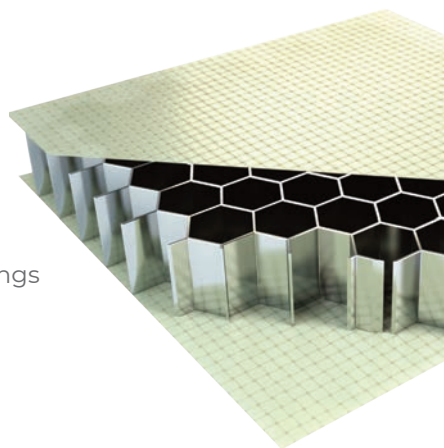

FAH PANEL

Aluminium honeycomb core coated with fiberglass and epoxy resin

Usage: Support for marble/ceramic or other coatings for internal or external facade cladding

Application Fields: Building - Shipbuilding

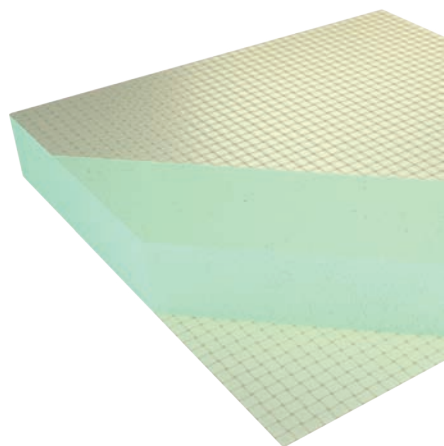

FPET PANEL

Pet foam core coated with fiberglass and epoxy resin

Usage: Support for marble/ceramic or other coatings for internal or external facade cladding

Application Fields: Building - Shipbuilding - Railway - Furnishing - Elevators - Camper and Caravan

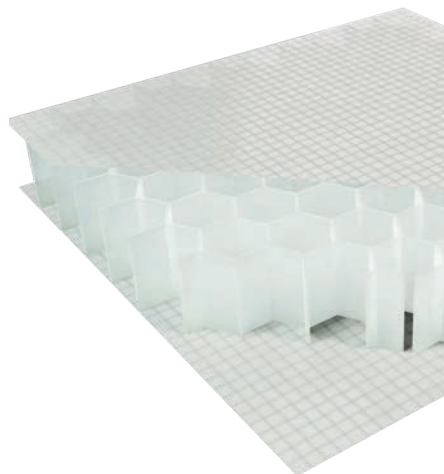

FPH PANEL

PP or PET honeycomb core coated with fiberglass and epoxy resin

Usage: Support for marble/ceramic or other coatings for internal or external walls, worktops, furniture and flooring

Application Fields: Building - Shipbuilding - Railway - Furnishing - Automotive - Elevators - Camper and Caravan

AAH PANEL

Aluminium honeycomb core coated with high quality aluminium sheets

Usage: Support for marble/ceramic or other coatings for internal or external facades, worktops, furniture and flooring

Application Fields: Building - Shipbuilding - Railway - Furnishing - Automotive

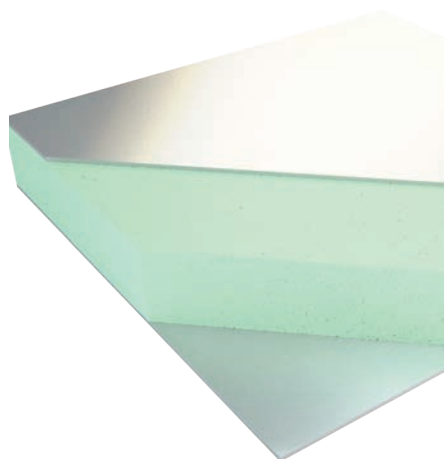

APET PANEL

Pet foam core coated with high quality aluminium sheets

Usage: Support for marble/ceramic or other coatings for internal wall, furniture, worktops, cubicles

Application Fields: Building - Shipbuilding - Railway - Furnishing - Elevators - Camper and Caravan

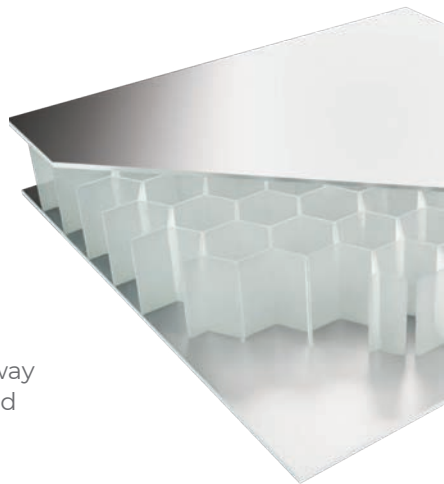

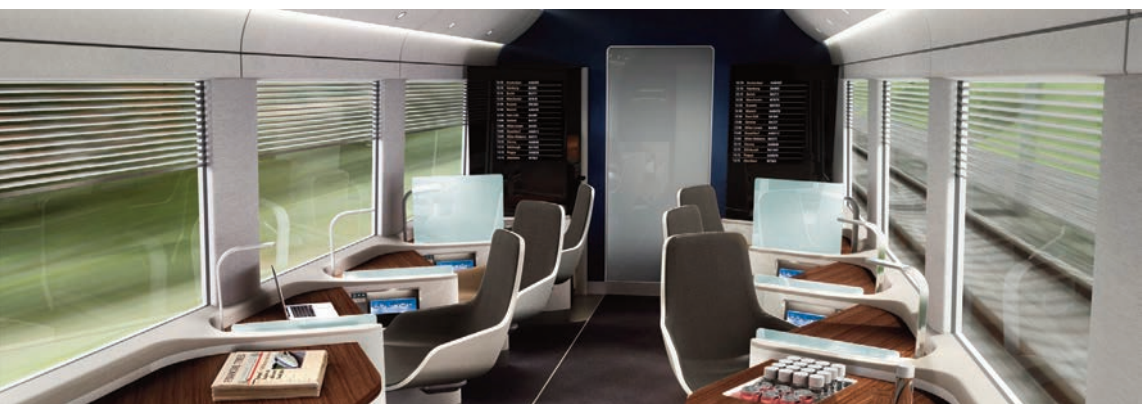

APH PANEL

PP or PET honeycomb core coated with high quality aluminium sheets

Usage: Support for marble/ceramic or other coatings for internal or external walls, worktops, furniture and flooring

Application Fields: Building - Shipbuilding - Railway - Furnishing - Automotive - Elevators - Camper and Caravan

LAH PANEL

Aluminium honeycomb core coated with high quality laminates

Usage: Covering for internal walls or false ceilings, doors, separation walls, cubicles and internal furniture

Application Fields: Building - Shipbuilding - Railway - Elevators - Furnishing - Camper and Caravan

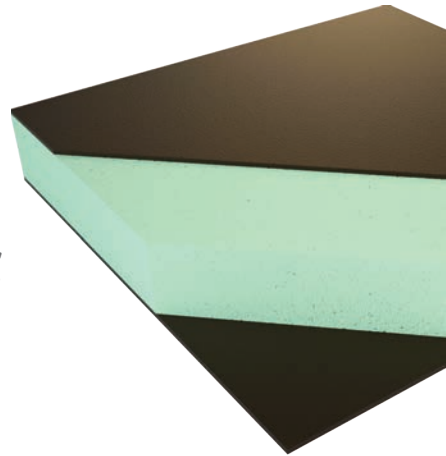

LPET PANEL

Pet foam core coated with high quality laminates

Usage: Covering for internal walls or false ceilings, doors, separation walls, cubicles internal furniture and elevators

Application Fields: Building - Shipbuilding - Railway - Elevators - Furnishing - Camper and Caravan

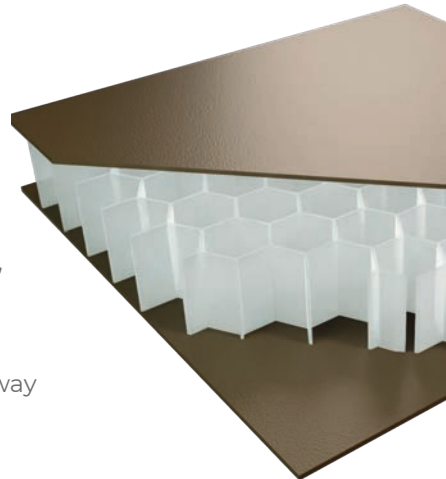

LPH PANEL

PP or PET honeycomb core coated with high quality laminates

Usage: Covering for internal walls or false ceilings, doors, separation walls, cubicles and internal furniture

Application Fields: Building - Shipbuilding - Railway - Furnishing - Elevators - Camper and Caravan
